Legend

- | | | | |
|-----------|--------------------------------|-----------------------|---------------------|
| Airbag | Gas generator | Seat belt tensioner | Gas-filled strut |
| Fuel tank | Restraint systems control unit | Pedestrian protection | 12 V / 48 V Battery |

Note

Further information is available in our [Guidelines for Car Rescue Crews](#).

Note

Vehicles of this type can additionally be equipped with a 48 V On-board electrical system.

The 48 V On-board electrical system is deactivated as soon as at least one airbag has been triggered in the event of a crash.

Further details can be found in the rescue manual.
