

-  Airbag
-  Gas generator
-  Seat belt pretensioner
-  SRS control unit
-  Active pedestrian protection system
-  Gas strut / Pre-loaded spring
-  Low-voltage battery
-  Petrol fuel tank

1. Identification / recognition

①  
**4MATIC**

2. Immobilisation / stabilisation / lifting

Parking brake

Press the P switch on the gear selector (1). The parking brake is automatically activated.

Electric parking brake (1)

 Suitable lifting points  
 Suitable stabilisation points on the side

3. Disable direct hazards / safety regulations

Switch off the ignition:

1. Switch off the ignition: Press "START/STOP" on the selector lever.
2. Keep the electronic vehicle key at a distance of at least 5 m.

 The absence of engine noise does not mean that the vehicle is switched off.

 A restart is possible until the vehicle is switched off.

### Disconnecting the 12 V battery

1. The 12 V battery is located in front of the center console under the instrument panel.
2. Remove door sill panel (1) and floor mat (2). Fold floor covering (3) out of way.
3. Disconnect negative cable (4) of 12 volt battery at threaded connection and secure it against unintentional contact.

The passive safety systems (airbags and seat belt pretensioners) are deactivated after disconnecting 12V battery.

10 seconds after disconnecting the 12V battery, the 48V system is automatically deactivated.

### Disconnecting the 48 V battery

1. The 48 V battery is located under the vehicle on the left side in the direction of travel.
2. Disconnect signal cable (1) from 48V battery.
3. Disconnect electrical cables (2) then (3) at the screw connection and secure it against unintentional contact.

## 4. Access to the occupants

When rescuing the vehicle occupants, the components of the restraint systems (in particular pyrotechnic elements) must be taken into account in accordance with the information on page 1.

1. Slide a flat, non-metallic object behind the retracted door handle (1) from above and lever it slightly out. 2. Reach behind the door handle (2) from below and pull it out until you feel resistance, then hold.

1. Press the front edge of the door handle 2. Pull the door handle outward

Steering wheel adjustment

Seat adjustment (electric)

- VSG: Laminated safety glass
- ESG: Tempered glass

### 5. Stored energy / liquids / gases / solids

		12 V Li-ion
		48 V Li-ion
		60 L
		630 ± 10 g

### 6. In case of fire

Use large volumes of water (H<sub>2</sub>O) to extinguish a vehicle fire.  
Use large volumes of water (H<sub>2</sub>O) to cool the Li-ion battery.

Warning: Ignition of the battery possible

### 7. In case of submersion

There is no risk of voltage in the bodywork. After recovery of the vehicle:

1. Allow the water to drain out of the interior.
2. Commence deactivation of the 12 V/48 V electrical system (see Section 3).

### 8. Towing / transportation / storage

### 9. Important additional information

You can find more information in the [Guidelines for car towing services](#).

Note: Please see our [emergency response guide](#) for more information

10. Explanation of pictograms used

Vehicle on fuel of liquid group 2

General warning sign

Flammable

Hazardous to the human health

Corrosives

Acute toxicity

Explosive

Use water to extinguish the fire

Use dry foam to extinguish the fire

Use wet foam to extinguish the fire

Remove smart key

Air-conditioning component

Warning; low temperature
