Fuel tank

Restraint systems control unit

12 V / 48 V Battery

### Note

Further information is available in our [Guidelines for Car Rescue Crews](#).

#### Note

Vehicles of this type can additionally be equipped with a 48 V On-board electrical system.

The 48 V On-board electrical system is deactivated as soon as at least one airbag has been triggered in the event of a crash.

Further details can be found in the rescue manual.
