- Gas generator
- Seat belt tensioner
- Gas-filled strut
- Body reinforcement
- Fuel tank
- Restraint systems control unit
- 12 V Battery

Note

Further information is available in our [Guidelines for Car Rescue Crews](#).

Door hinges

The SLS AMG is equipped with a safety system which uncouples the door hinges from the hinge arms when the vehicle comes to rest lying on its roof after an accident. Each door hinge (1) contains a pyrotechnic initiator (2) which is triggered by the restraint systems control unit. When the door lock is opened, the doors can be pulled off the hinge arms (3).
