

- ① 12 V Battery (12 V On-board electrical system), Left-hand drive
- ② 48 V Battery (48 V On-board electrical system), Left-hand drive
- ③ 12 V Battery (12 V On-board electrical system), Right-hand drive
- ④ 48 V Battery (48 V On-board electrical system), Right-hand drive
- ⑤ 12 V Battery (48 V On-board electrical system)

|           |                                |                       |                     |                    |
|-----------|--------------------------------|-----------------------|---------------------|--------------------|
| Airbag    | Gas generator                  | Seat belt tensioner   | Gas-filled strut    | Body reinforcement |
| Fuel tank | Restraint systems control unit | Pedestrian protection | 12 V / 48 V Battery |                    |

Note: Please see our [emergency response guide](#) for more information

**Note**

Vehicles of this type can additionally be equipped with a 48 V On-board electrical system.

The 48 V On-board electrical system is deactivated as soon as at least one airbag has been triggered in the event of a crash.

Further details can be found in the rescue manual.
